Ready for Pain Relief Without Medication or Surgery?

**The Answer Is TrueRelief:
A Non-Opioid, Non-Invasive
Technology Offered
by TherExcel**

TrueRelief is the pain relief alternative to opioids. TrueRelief is an FDA-cleared, non-invasive medical device that delivers an electroceutical treatment that uses a patented combination of high frequency electrical current delivered dynamically by a skilled medical professional. TrueRelief is a prescribed treatment that can be used as frequently as needed with no known side effects. The treatment itself is completely painless.
